## FELL DOWN FLIGHT OF STEPS

Leroy Scott Cuts Hole in Chin, Which Dr. Mason Closes With Silken Thread.

Miss Lizzie Lerner, who lives on Church Hill, was celebrating the glorious Fourth yesterday afternoon by shooting fire-crackers with several others. She got hold of an extra large one, and, lighting its fuse, failed to drop it soon enough. The cracker exploded in her hand, and Miss Lerner immediately joined the wounded veterans, who annually shed their blood because the Declaration of Independence was signed on a certain 4th of July. She lost a finger nail and received a badly burned hand. The ambulance was called and Dr. Mason doctored the wound.

## Fell Down Steps.

Leroy Scott, a colored boy of Church Hill, fell down the steps of his home at 9 o'clock yesterday morning and cut a big hole in his chin. The ambulance was called, and Dr. Mason in attendance. After taking several stitches he was left. Dr. Mason attended Cornelius Gallagher, a colored boy, who lives on Buchanan Street, at 2 o'clock yesterday afternoon. He was stabbed on a place of glass, and four stitches were necessary. Peter James, colored, was "fooling" with a horse on Cary Street between Sixth and Seventh, at 2 o'clock yesterday afternoon, when the horse fell on his foot, breaking his left leg above the ankle. Dr. Mason treated the man, and took him home.

## Cut His Head Open.

W. C. Tinsley, a man of about sixty years, left his home at 720 West Broad Street yesterday afternoon, imbued with this spirit of the "Glorious Fourth." Going down the street, he added to the spirit already at hand. At 6 o'clock he was started for somewhere, but was interrupted at Belvidere and Cary Streets, where the pavement suddenly arose and struck him in the head. Tinsley bled profusely. Dr. Mason took four stitches on the side of his scalp, and carried him home. Somewhat about 6 o'clock yesterday afternoon at Seventeenth Street and Rock Alley, Dr. Mason found a deep cut in his right side, which caused a slight hemorrhage from his lungs. The man was taken to the hospital for treatment.

## AT MONTICELLO.

Y. M. C. A. Boys Will Have Camps Near Mansion.

The Central Y. M. C. A. annual encampment will be held the year on Monticello Mountain, under the shadow of the house designed and built by Thomas Jefferson. Special arrangements have been made by the Y. M. C. A. staff. Mr. J. H. W. Jones, who manages the Monticello estate. Excellent fishing and bathing will be among the amusements of the boys.

The party will leave Richmond July 11th and will be gone a week or ten days. The final step in making these entirely satisfactory arrangements was not taken until yesterday.

## News of the Sick.

Miss Grace Gibson, of Rock Ridge, Bath, Va., entered the Memorial Hospital yesterday.

Mr. W. B. Robbins, father of Dr. Charles R. Robbins, entered the Memorial Hospital yesterday, and will undergo an operation to-day.

Mr. John Burfoot remains little improved at the Memorial Hospital, and is doing nicely. His wife and father are with him.

Mr. T. A. Hughes, of El Paso, Tex., is ill with typhoid fever at the Memorial Hospital.

Mr. J. Carter Walker, of Charlottesville, was operated upon yesterday, and is doing nicely. His wife and father are with him.

Mrs. J. H. Henning, of Ivy, Va., left the Virginia Hospital yesterday, after a successful operation.

Mrs. Kinney, who was operated upon some time ago at the Virginia Hospital, was able to leave yesterday for her home in Charlottesville.

Mr. Kay underwent an operation at the Retreat for the Sick, and late last night was doing nicely.

Mr. John E. Huggins, who was so badly burned by the explosion of an engine boiler several days ago, is doing as well as conditions will allow.

## The First Bale.

(By Associated Press.) NEW ORLEANS, July 4.—The first bale of cotton to be shipped from the 1906 crop in the United States, was today reported on its way from Brownsville, Tex. It was consigned to the New Orleans Charity Hospital.

## Beach Park Celebrated.

The morning train carried twelve crowded coaches to Beach Park yesterday, and the "Twilight Limited" took nine more. A fine day was enjoyed at the beach by the large crowd which visited it. Many special features were given during the day in observance of the Fourth, and a grand display of fireworks was held at night.

## NEWS GATHERED FROM SOUTHSIDE

Large Crowd of Excursionists Go to Seaside Resorts and to Drewry's Bluff.

## MARRIES THREE COUPLES

Rev. C. O. Woodward Popular With the Matrimonially Inclined.

Manchester Bureau, Times-Dispatch, No. 1112 Hull Street. Everybody in Manchester took holiday yesterday, and crowds took advantage of the excursions to Buckroe Beach and to Ocean View. Forest Hill was also more than filled with its quota of pleasure-seekers, and the Forest Hill cars did a heavy business all day. The traffic was particularly heavy at night. Large throngs also visited Jamestown and the ball park, where the Manchester baseball enthusiasts congregated in big crowds at both games.

A very delightful excursion was made to Drewry's Bluff under the direction of Rev. Mr. and Mrs. C. O. Woodward. About seventy young people took part in the trip, all having a most enjoyable time in boating and other forms of amusement. A big Brunswick stew was prepared by Messrs. Sidney Cox and W. W. Mack, and all set to work with that appetite which only an excursion into the fresh country can give.

'Squire Jordan Oldest Member. Stuart Lodge, of Manchester Odd Fellows, held a hot fete Tuesday night in celebration of the fact that the last dollar on their bill at Eighth and Hull Streets, had been collected and the whole sum paid.

'Squire Jordan started the move to buy the hall on April 3, 1888, the cost being \$4,500. The lodge was established on August 2, 1870, and of the eleven charter members who constituted the lodge at that time 'Squire Jordan is the only member now living. He was initiated into Henderson Lodge in 1863, and is now the oldest living Odd Fellow in Manchester. The meeting of the Stuart Lodge on Tuesday night was made the occasion of many congratulations for the old 'Squire on the part of the other members, and he was called on for a speech. He gave them a long talk on the history of the lodge from the time of its founding. His reminiscences were extremely interesting, and he was listened to with the greatest attention.

At the conclusion he was presented with a handsome bouquet of flowers as a token of his comrades' high esteem, and in the spirit of congratulation that he should have been with them so long and should have labored so well, and with such good effect for the welfare of the lodge. Other speakers were Messrs. E. V. Green, George W. Blankenship, George W. Payne and C. P. Walthall.

At the close of the meeting, a bountiful repast was served in the lodge banquet hall, and the members enjoyed themselves in high spirits.

On next Tuesday night the following officers will be installed: Noble Grand, Mr. C. V. Green; Vice-Grand, Mr. R. L. Riddell; Treasurer, Mr. B. S. Moody; Recording Secretary, Mr. George W. Blankenship; Financial Secretary, Mr. Ernest Nebbett; Chaplain, Mr. E. A. Andrew. It is said that this lodge is as well established in financial matters as any lodge in the State.

## Joins Three Happy Couples.

Rev. C. O. Woodward, pastor of Cowardin Avenue Christian Church, was yesterday the officiating minister in three weddings. It seems that the would-be happy ones travel very often to Mr. Woodward for the tying of that knot which no man may sever, and he is very often called on to perform this pleasant task.

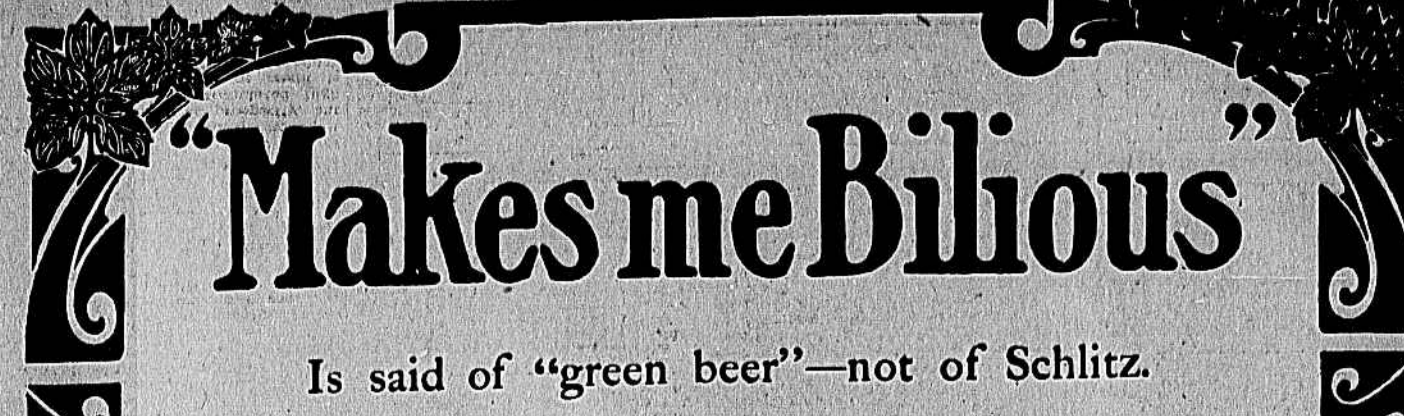

Mr. William H. Conklyn and Mrs. Hattie L. Garber were married yesterday morning at 8 o'clock by Mr. Woodward at the home of the bride, on East Thirteenth Street. After the ceremony Mr. and Mrs. Conklyn left for their honeymoon to Old Point. Mr. Conklyn is an iron moulder of Richmond.

The second wedding at which Mr. Woodward officiated was that of Mr. Anthony L. Parrie, of Richmond, and Miss Cota May Cleton, of Fifteenth and Decatur Streets. The ceremony took place at 9 o'clock last night in the home of the bride. The bride is the daughter of Mr. Arnold and Mrs. Molly Cleton, and was born in Mecklenburg county. Mr. Parrie was born in Chesterfield county. He is an iron worker in Richmond, where the couple will make their home.

The third wedding was that of Mr. Bascom Holloway and Miss Evelyn Pearl Fowler, a sister of the Mr. Fowler who died recently in Florida, where he had gone for his health. The ceremony occurred at about 10 o'clock P. M. Both are of Swansboro, where they will make their home.

## Saves Little Girl's Life.

Policeman Edward Waymack was fortunate enough yesterday afternoon to be the means of saving a young girl's life, or, at least, saving her from serious injury. He was returning from the ball park to Manchester, and while at Seventh and Broad Streets, a young

# "Makes me Bilious"

Is said of "green beer"—not of Schlitz.

Schlitz beer is aged in glass enameled steel tanks for months before it is marketed. Fermentation is finished long before you get it.

That is an apparent virtue. But the chief distinction of Schlitz is its purity—a virtue that you can't see. Yet the cost of that purity exceeds all other costs of our brewing.

Ask for the Brewery Bottling.  
Common beer is sometimes substituted for Schlitz.

## THE STATE FARMERS' INSTITUTE IS NEAR

The Most Important and Far- Reaching in History of Virginia Agriculture.

Editor of The Times-Dispatch: One week from to-morrow, on July 10th, there will convene in the city of Roanoke the State Farmers' Institute. The session will continue for three days. The first two days will be devoted to speakers, who will entertain the large assemblage on most timely and interesting topics. The third and last day will be filled by an excursion to Blacksburg to visit the State Agricultural Experiment Station buildings and farm, and the State Polytechnic Institute. This interesting excursion is furnished absolutely free by the Norfolk and Western road and affords the whole people of this State, as well as the farmers, an opportunity to visit and examine carefully an institution, the magnitude and importance of which to the State have ever contemplated. Agriculture is the great- est of all occupations, but its progress and development has been slow. It has in recent years, owing to the closest competition, been necessary to apply the most scientific methods to every branch of the old and the new methods and the profits to be derived by the most laborious and costly means. The knowledge of the world, and students from all parts of the globe attend these agricultural schools to learn the improved methods and carry the knowledge of its application back to their homes and their people, adding profit over the old crude methods, that are worthy of consideration in every State are profiting by the teachings of these experiment stations.

## FIRE WRECKS BIG MILLS IN TEXAS

(By Associated Press.) BEAUMONT, Tex., July 4.—The Sibley mills, of the Kirby Lumber Company, together with the yards, containing 5,000,000 feet of lumber and numerous buildings, were destroyed by fire, which originated at 2:30 this afternoon, and was still burning at midnight, though it is not thought that it will spread. The fire originated from a hot belt in the mill. The loss of lumber will reach half a million dollars, while the loss on machinery will exceed \$200,000. The Kirby Company has had three mills destroyed, with losses aggregating over \$2,000,000, during the past year.

## SON BORN TO CROWN PRINCESS OF GERMANY

(By Associated Press.) BERLIN, July 4.—Crown Princess Frederick William was safely accouched of a son at 9:15 this morning. The boy is well formed and strong. The news of the birth of his grandson was communicated to Emperor William by means of a wireless dispatch from Kiel to the steamer Hamburg, on which His Majesty is proceeding to Trondheim, Norway. There was great rejoicing at Potsdam when it became known that the Crown Princess had given birth to a son. A salute was fired and the town decorated.

## The Pinch of High Prices.

People are feeling the pinch of high prices and the cost of living now, and if the advance goes much further, with its stimulus to speculation and "booms" and the expansion of credit, something is liable to give way. If history repeats itself in 1908 by a Republican defeat, it will not be due to gold prosperity, but to a reaction, which stimulated high prices and the stretching of credit is sure to bring about in time, and which will make people realize that protection means wealth in the hands of the few and brings torments of adversity which make the many suffer. Republicans may well pray that the inevitable reaction be delayed until after November, 1908.—New York Journal of Commerce.

## Jenkins, D. D., superintendent of the North Carolina Methodist Orphanage here, died this morning at 6 o'clock, having steadily weakened from a stroke of paralysis received Sunday morning.

Jenkins was in the seventy-fifth year of his age, and had been in charge of the orphanage since its establishment eight years ago. In fact, for several years prior to the opening of the institution he devoted his time to raising the funds for founding it. To him is accorded very largely the credit for the splendid \$100,000 plant North Carolina Methodists now have. Dr. Jenkins had been in the Methodist ministry for forty years, and served as pastor notably at Plymouth, Warrenton, Chapel Hill, Leesburg, Yanceyville, Rockingham, Durham and elsewhere. He was four times married, and leaves six children, all grown. Mr. John Wilber Jenkins, of the Baltimore Sun, being among the number.

## The funeral will be from Edenton Street Methodist Church at 4 o'clock to-morrow, conducted by Presiding Elder W. W. Moore.

## Mrs. William Ellett.

## SPECIAL BULLETIN

The Times-Dispatch

# Men Who Have ....Done Things

Everybody is reading with deep interest Dexter Marshall's articles in the Sunday Times-Dispatch on "Men in the Public Eye." His article for next Sunday is one of the best of the series. It deals with a half dozen men who have done things. These men are:

1. John B. McDonald, who is building the great Jerome Park Reservoir, to supply New York with water, and who built the New York Subway.
2. Lord Cromer, who built the Aswan dam, in Egypt, by which the Nile has been put at its old-time work of irrigating and fertilizing the ancient land.
3. General Grenville M. Dodge, who built the first Pacific railroad.
4. Charles M. Jacobs, who is building the Pennsylvania and Meadco tunnels under New York.
5. Sir Westman Pearson, who built the Tehuantepec Railroad, biggest living contractor, and whose firm is mixed up with the Pennsylvania tunnel.
6. James Stewart, the American contractor, who has astonished the English by his rapid and gigantic work. Full of the romance of achievement.
